Section 1: Introduction

1.1 Program Overview

Santee Cooper is pleased to offer its 2017 Solar Home Program and Solar Share Program (collectively referred to as the “Programs”). The Solar Home Program provides rebates to eligible residential Customers for the installation of solar photovoltaic (PV) systems for electric generation at their homes. The Solar Share Program provides rebates to residential Customers who subscribe to the Santee Cooper sponsored community share solar farm located in Colleton, SC (“Solar Farm”). This manual outlines the details of both Programs.

1.2 Contact Information

Questions and additional information about the Programs can be directed to Santee Cooper via:

- Web: www.santeecoopersolar.com
- Telephone: (843) 347-3399 x3910
- Email: Solar@santeecooper.com

If you have questions about the viability of a solar electric system on your home or about installation, please contact your Santee Cooper Solar Electric Trade Ally or NABCEP certified PV Installation Professional.

1.3 Submittals

Customers can send their applications and the required documentation to:

Santee Cooper Energy Support Services
305A Gardner Lacy Rd
Myrtle Beach, SC 29579

Or by email to:
Solar@santeecooper.com

Or by fax to:
(843) 347-8781
Section 2: General Program Information

2.1 Program Timeline

These Programs are currently being offered for qualifying home solar PV installations and subscriptions to the Solar Farm, completed between December 1, 2016 and November 30, 2017 (“Program Period”). Santee Cooper may, at its discretion, extend either Program past November 30, 2017. For the Solar Home Program, all qualifying equipment must be purchased and installed in accordance with Program requirements as set out in this Manual and the application received by Santee Cooper during the Program Period, to be eligible for the Program. Projects completed and submitted after the Program Period will be offered the option to be placed on a waiting list, in the order that the applications are received by Santee Cooper, for consideration in the subsequent Program period.

2.2 Program Rebate Information

Funding for the Programs is limited and applications will be reviewed on a first-come, first-served basis until all available rebate funding has been committed. Customers requesting rebates for either Program after all available funding for the Program Period is committed will be offered the option to be placed on a waiting list, in the order that the applications are received by Santee Cooper, for consideration in the subsequent Program period.

Additional information regarding the rebates and subscription benefits available in each of the Programs is provided in the sections below.

2.3 Program Administrator

Santee Cooper has contracted and authorized Nexant, Inc. to administer these Programs including such activities, but not limited to reviewing, processing, and approving Customer applications; facilitating project information requests from Customers; and performing measurement and verification activities.

2.4 Santee Cooper Solar Electric (“SE”) Trade Ally Network

Customers may use an installer who is a member of Santee Cooper’s Solar Electric Trade Ally network (“SE Trade Ally”) for the purchase and installation of their solar PV systems to be eligible for rebates in the Solar Home Program. Customers may also use any NABCEP-certified PV installation professional. Trade Allies are independent contractors with respect to the Program and are not authorized to make representations or incur obligations on behalf of Santee Cooper. Participation as a Trade Ally does not constitute an endorsement by Santee Cooper, nor does it certify or guarantee the quality of work performed. A listing of Trade Allies is available online at www.santeecoopersolar.com or by contacting the Program Administrator at SCsolar@nexant.com.

2.5 Distributed Generation Rider

Customers who interconnect a Solar PV System to Santee Cooper’s Grid or subscribe to the Solar Share Program will be subject to the requirements, credits, and fees outlined in the most recent Distributed Generation Rider. The energy credits and fees outlined in the current Distributed Generation Rider (DG-16) are as follows:

<table>
<thead>
<tr>
<th>Energy Credits</th>
<th>Monthly Fees</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summer (June-September): $0.0389/kWh</td>
<td>• Metering Charge: $2.00 per month</td>
</tr>
<tr>
<td>Non-Summer (October-May): $0.0381/kWh</td>
<td>• Stand-by Charge: $4.40/kW per month</td>
</tr>
</tbody>
</table>

Energy charges will be based on the customer’s usage and applicable rate schedule.

To download a copy of the latest Distributed Generation Rider, please visit: https://www.santeecooper.com/committed-to-south-carolina/environmental-stewardship/distributed-generation.aspx
Section 3: Solar Home Rebate Program

The Solar Home Program provides rebates to eligible residential Customers for the installation of solar PV systems at residential facilities. This section outlines the eligibility requirements, participation process, solar PV system information and rebate information for this Program.

3.1 Eligibility Requirements

3.1.1 Customer Eligibility Requirements
To participate in the Program, a Customer must meet the following eligibility requirements:

1. Customers applying for the Solar Home rebate must be the sole owner of the home or be authorized by the owner(s) to make necessary modifications to the home to install the proposed solar PV system.
2. Customers applying for the rebate must be the owner of the solar PV system or the owners’ authorized representative. Third party leasing agreements will not qualify for rebates from Santee Cooper.
3. The residence must be separately metered and receive electrical service from Santee Cooper through the Residential General Service (RG or its successors) prior to interconnection.
4. Multifamily residential facilities applying to participate in the Solar Home Program will be eligible only if they are able to provide a Santee Cooper account number associated with the common areas and are receiving electrical service from Santee Cooper through the Residential General Service (RG or its successors).
5. Customers receiving rebates or applying for rebates for the installation of a rooftop solar PV system under the Solar Home Program are not eligible to receive rebates and bill credits through the Solar Share program.
6. A Customer must have applied to Interconnect and received an application approval notice, prior to being eligible to apply for the Solar Home Program. The Solar Home Program Rebate Application and required documentation must be submitted to Santee Cooper within 90 days of the installation of the solar PV system in order to be eligible to receive rebates.
7. The Customer must maintain liability insurance, as outlined in Santee Cooper’s Interconnection Standard, for as long as the solar PV system is interconnected to Santee Cooper’s system.

3.1.2 System Eligibility Requirements

1. To qualify for rebates, installations must be completed by a qualified Santee Cooper Solar Electric (SE) Trade Ally (Trade Ally) or NABCEP-certified PV installation professional. Please see www.santeecoopersolar.com for a list of qualified SE Trade Allies or www.nabcep.org.
2. The solar PV system rating must have a minimum rating of 1 kilowatt alternating current ("kW AC") and must not exceed the lesser of 20 kW or the Customer’s annual peak electrical demand recorded over the past 12-month period from the date on which the Solar Home Application was signed.
3. All solar PV system equipment and material must have been purchased and installed on or after November 30, 2016.
4. Qualifying equipment and materials installed must be new.
5. All installations must use solar PV technology to generate electricity.
6. The installation of the solar PV system must be completed in a manner that meets or exceeds all applicable codes, standards and regulatory requirements.
7. To qualify for the Solar Home rebate, the installation of the solar PV system and all equipment in the system must comply with the latest published edition of Institute of Electrical and Electronics Engineer (IEEE) 929, IEEE 1547, IEEE 1547.1, and any additional standards as indicated in Santee Cooper’s Interconnection Standard located at https://www.santeecooper.com/pdfs/residential/equipment/scpsa_generator_interconnection_procedures_final.pdf. The generation system must also pass the anti-islanding test in UL 1741.
3.2 Solar Home Participation Process

Customers interested in the Solar Home Program can participate in the Rebate Program by following these basic steps:

**Step 1:** Contact a Santee Cooper SE Trade Ally or a NABCEP certified PV Installation Professional to set up an on-site assessment for solar viability

**Step 2:** (Optional) Complete and submit a Rebate Reservation Worksheet to Santee Cooper.

**Step 3:** Complete and submit an Interconnection Request Application to Santee Cooper. An Interconnection Request Application may be found at [https://www.santeecooper.com/pdfs/online-forms/sc0924i_attachment_7.pdf](https://www.santeecooper.com/pdfs/online-forms/sc0924i_attachment_7.pdf). Santee Cooper will communicate the approval status upon reviewing the Interconnection Request Application.

**Step 4:** The Customer may purchase and install the approved solar PV system within 90 days following the date on which Santee Cooper communicated the approval to interconnect. To qualify for a rebate, the installation must be completed within 90 days of the approval of the Interconnection Request Application, or by November 30, 2017, whichever comes first.

**Step 5:** Once the installation is completed, Customer may work with the SE Trade Ally or NABCEP-certified PV Installation Professional to complete and submit a Solar Home Rebate Application within 90 days of the installation. Santee Cooper reserves the right to perform an on-site inspection prior to approving the Application.
Figure 3-1 shows a graphical representation of the participation process to receive rebates for the installation of solar PV systems through the Solar Home Program.
3.3 Site Inspections

Santee Cooper or its designee, at its sole discretion, may inspect the associated residence prior to or up to two years after approving the Rebate Application. The inspection may include a telephone survey and/or site visit. Such visits may also include the installation of temporary monitoring equipment. Discrepancies from information listed on the Customer’s application or incorrect installation of systems identified during an inspection may delay or void rebate payment. Customers will be notified upon completion of the inspection if any discrepancies were identified and if specific action items will be required in order to complete the rebate fulfillment process.

3.4 Solar PV System Details

3.4.1 Solar PV System
A solar PV system is a power system designed to supply usable solar power generated using photovoltaics. It consists of an arrangement of several components including any number of solar photovoltaic modules connected together, and connected to an inverter, which provide electrical energy to a building or to the electric grid. PV systems convert light directly into electricity versus other solar technologies, such as concentrated solar power or solar thermal, used for heating and cooling.

3.4.2 Isolation Device
An isolation device is a manual load-break disconnect switch or safety switch that connects the Customer’s solar PV system to Santee Cooper’s grid.

3.4.3 PV Module Specification
A PV module or panel is a collection of photovoltaic cells designed to absorb the sun’s rays and convert them into electrical current. PV modules are rated by direct current (DC) output. Depending on the power needed, several modules can be installed on a building or at ground level in a rack to form a PV array.

3.4.4 Inverters
An inverter is a device that converts direct current (DC) electricity from a solar PV module or array into alternating current (AC) for use directly to operate appliances or to supply power to the electric grid. The efficiency of the inverter is specified as a percentage with your system specifications and will affect the final rebate amount.

The inverter or interconnection protection system must be tested and listed for compliance with the latest published edition of Underwriters Laboratories, Inc (UL) 1741. The inverter must also be new and unused and must have been manufactured after November 7, 2000. Please see Santee Cooper’s Interconnection Standard (https://www.santeecooper.com/pdfs/residential/equipment/scpsa_generator_interconnection_procedures_final.pdf) for more details.

3.5 Solar Home Rebate Information

Rebates for the installation of solar PV systems are set as a one-time payment of $1.60/watt paid based on the system’s power output (watt AC). Solar Home Rebates are capped at $9,600 per account number. The system’s power output (watt AC) used to calculate the rebate is the lesser of the inverter’s nominal AC power output (watts AC), or the rated power output of the system (watts DC) multiplied by the inverter efficiency, as defined by the following formula:

\[
\text{Number of PV Modules} \times \text{Rated Watts (DC) per PV Module} \times \text{Inverter Efficiency (\%)} = \text{Watt (AC)}
\]

In addition to the rebate, Solar Home Customers will receive energy credits as outlined in Santee Cooper’s most recent Distributed Generation Rider and additional energy credits as outlined in the 2015 Santee Cooper Integrated Resource Plan. Solar Home participants will be issued the rebate upon verified completion of all of the solar PV system requirements. Additional information on the rebate is available at www.santeecoopersolar.com.
Section 4: Solar Share Program Information

The Solar Share Program provides rebates and bill credits to eligible residential Customers for subscribing to Santee Cooper sponsored community Solar Farm. This section outlines the eligibility requirements, participation process and rebate information for this Program.

4.1 Eligibility Requirements

To participate in the Program, a Customer must meet the following eligibility requirements:

1. Customers must receive electrical service from Santee Cooper through the Residential General Service (RG or its successors)
2. Customers receiving rebates or applying for rebates for the installation of a rooftop solar PV system under the Solar Home Program are not eligible to receive rebates and bill credits through the Solar Share program.
3. Customers applying for Solar Share subscription are not required to submit an Interconnection Request Application.

4.2 Solar Share Participation Process

Through the Solar Share Program, Customers can participate by subscribing to blocks of rated generation capacity. Each block is equivalent to a rated generating capacity of 1 kW of electricity (“Block”). For each qualifying service address, the total Blocks subscribed to must not exceed the lesser of 20 kW or the Customer’s annual peak electrical demand recorded over the past 12-month period from the date on which the Solar Share Subscription Application was signed. The maximum number of Blocks eligible for subscription through the Solar Share Program will be determined by Santee Cooper, at its discretion, and may be less than the number of Blocks for which the Customer applied.

Customers interested in the Solar Share Program can participate by following these basic steps:

**Step 1:** Submit a Solar Share Subscription Application (“Subscription Application”) to Santee Cooper. Santee Cooper will review the Customer’s Subscription Application and advise the Customer of its approval to participate in the Program. Santee Cooper will send the Customer a Letter of Approval.

**Step 2:** Santee Cooper will review the Customer’s Subscription Application and advise the Customer of its approval to participate in the Program. Santee Cooper will send the Customer an Approval Letter stating the number of Blocks approved for purchase.

**Step 3:** Once Santee Cooper approves the Subscription Application, the Customer can purchase the approved number of blocks by paying the Discounted Subscription Fee provided in the Approval Letter within 90 days following the date of the letter.

Details of the final approved subscription and the fees required from Customer will be outlined in the Approval Letter. Each subscription shall be effective beginning on the date on which the Discounted Subscription Fee is received by Santee Cooper and will continue until December 20, 2033, or until a Subscription Buyout is initiated by Santee Cooper, whichever comes first. In the event the Customer fails to make the Discounted Subscription Fee payment as described in the Letter of Approval, the Subscription Application will be rejected and a subscription will not be initiated.

Solar Share subscriptions are associated with the Santee Cooper service account number listed on the Solar Share Subscription Application and are non-transferable. If the Customer relocates within Santee Cooper’s service territory, a separate Subscription Application will be required for each specific service address.
4.3 Solar Share Rebate Information

The Solar Share program offers a rebate of $1,400 for each Block ("Rebate") subscribed to by the customer limited to a maximum of six (6) Blocks per Customer. The cost for each Block subscribed to is $1,820 ("Subscription Fee"). The rebate is subtracted from the Subscription Fee to calculate the discounted subscription fee due from the Customer ("Discounted Subscription Fee"). The Discounted Subscription Fee must be paid as described in Section 4.4 before the Customer’s subscription will be completed. An example of the Discounted Subscription Fee calculation is presented in Table-1.

Table-1. Example of Discounted Subscription Fee Calculation

<table>
<thead>
<tr>
<th></th>
<th>$/kW</th>
<th>Subscription Amount (in kW AC)</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>
<td>Subscription Fee</td>
<td>$1,820</td>
<td>4.0</td>
<td>$7,280</td>
</tr>
<tr>
<td>Rebate</td>
<td>$1,400</td>
<td>4.0</td>
<td>$5,600</td>
</tr>
<tr>
<td>Discounted</td>
<td></td>
<td></td>
<td>$1,680</td>
</tr>
</tbody>
</table>

4.4 Subscription Benefit

The Customer will receive credits in two ways. The first is a bill credit equal to the proportional amount of their share of generation from the Solar Farm at the same rate the Customer pays for electricity. The second is a bill credit equal to any excess generation from the Solar Farm that was not used by the Customer as outlined in the Distributed Generation Rider. The generation amounts for the Customer and the Solar Farm will be compared on an hourly basis and then incorporated into the monthly bill. The Program Application describes this process in more detail, and Appendix E contains an example of these calculations and a sample bill.

4.5 Subscription Buyout

Santee Cooper reserves the right to repurchase a Customer’s subscription. Santee Cooper may initiate a Subscription Buyout process (as outlined below) in the event of any of the following conditions: 1: Change in the Customer’s service address to an address outside of the Santee Cooper service territory, 2: Customer’s account reported to no longer be in service, for any reason.

A Customer may not request Santee Cooper to repurchase its subscription under any conditions other than a change in the Customer’s service address.

Subscription Buyout Process:

a. Santee Cooper will send the Customer a Repurchase Notice, which will include a Repurchase Price to be paid to the Customer as compensation for the remaining years in the subscription term, to notify the Customer of its intent to repurchase Customer’s subscription. For additional details on the calculation of the Repurchase Price, please contact solar@santeecooper.com

b. The Subscription Agreement will be terminated on the date the Repurchase Price payment is issued and any additional rebates or credits available through the Program shall cease.
Appendix A: Frequently Asked Questions

- What is a solar electric system?
  - A solar electric system or photovoltaic (PV) system, converts sunlight into electricity that can be used in your home.

- Will I still have electricity when there is no sunlight?
  - Yes, if you are interconnected to Santee Cooper's electrical grid, Santee Cooper will serve your home's electricity needs when there is inadequate sunlight.

- How do I know what system size to purchase?
  - The size of the system you choose will depend on a few factors, such as the amount of money you want to invest, the amount of electricity you want to produce, and the amount of space you have for installing solar panels. You should review your old electric bills to help determine how much electricity your home typically uses. A qualified Santee Cooper SE Trade Ally or NABCEP certified PV Installation Professional can help you to determine what size system is right for your home. For a list of qualified Santee Cooper SE Trade Allies, please contact solar@santeecooper.com or (843) 347-3399 ext 3910.

- Do solar PV systems require maintenance?
  - The type of maintenance that may be required of a system is dependent on the particular system you purchase. Please consult your solar installer and manufacturer to find out if any additional maintenance will be needed.

- What happens to solar generation through my solar PV system during an electric outage?
  - It depends on your system. Systems with battery backup will continue to have power. Systems without battery backup must shut down until the outage has been restored. Having electricity run into the grid from a solar electric system is a safety hazard for anyone working on the power lines.

- Do systems with battery backup qualify for a rebate?
  - Rebates are available for the solar electric portion of a system but not for the battery portion of the system. The rebate is based on the installed capacity (kW AC).

- Does Santee Cooper install solar panels?
  - No, Santee Cooper does not install solar panels. To qualify for a rebate, you must choose a SE installer from our list of qualified solar Trade Allies or a NABCEP certified PV Installation Professional. For a list of qualified Santee Cooper SE Trade Allies, please contact solar@santeecooper.com.

- Does Santee Cooper finance solar panels?
  - Financing options are available for Santee Cooper’s residential Customers, through the Renewable Energy Resource Loan program. Please contact solar@santeecooper.com for additional information.

- What if my home is not suitable for solar panels?
  - If your home is not suitable for solar panels for any reason, participating in the Solar Share program may be a more viable option for you. Solar Share is a community solar program that allows Customers to subscribe to a portion of the energy generated by a Santee Cooper-sponsored community Solar Farm, without having to install a solar electric system at your home. Customers subscribe to a certain number of blocks (measured in kW) to support the community Solar Farm, and receive a pro-rated share of the energy produced by the Solar Farm in the form of bill credits.

- What are renewable energy credits (RECs)?
  - A REC represents the property rights to the environmental, social, and other non-power qualities of renewable energy generation. In exchange for rebates offered by the programs, Santee Cooper will retain the ownership of all RECs associated with Customer installation of rooftop solar electric system and Customer subscription through the Solar Share program.

- If I expand the size of my system, can I apply for another rebate?
  - Yes, applications for increasing the size of a system are subject to the Program Manual, rebate caps, Terms & Conditions and other rebate program criteria in place at the time of acceptance of
the rebate application. The total rebate per Customer over the life of the program is capped at 6 kW.

- Who will help me apply for the Santee Cooper Solar Home rebate?
  - All qualified Santee Cooper Trade Allies or NABCEP certified PV Installation Professionals can assist in the rebate application process.

- Do I need approval from my Homeowners Association?
  - Please check with your Homeowners Association or any Restrictive Covenants and Conditions first. If there are covenants and/or restrictions in your neighborhood regarding solar electric systems, and you are prohibited from installing a system, you will be ineligible to receive a rebate. If your Homeowners Association is considering allowing such systems and would like more information, please have them contact Santee Cooper at solar@santeecooper.com.

- What happens if I move out of Santee Cooper’s territory?
  - Solar Share – If you move out of Santee Cooper’s territory, Santee Cooper may buy back your solar subscription at a depreciated value, depending on the number of years you have held the subscription. Email solar@santeecooper.com for more information.
  - Solar Home – If you move out of Santee Cooper’s territory, the next homeowner will be required to sign an amended Interconnection Agreement and receive the credits outlined in the current DG Rider if the next homeowner is interested in retaining the PV system interconnected to Santee Cooper’s grid.

- Can the Rebate Application be submitted by the Trade Ally on behalf of Santee Cooper’s Customers?
  - Yes, as long as the Customer signs the application.

- Should I submit the rebate application before or after I install a solar generation system?
  - The Rebate Reservation Worksheet may be submitted prior to installing a solar generation system. The Interconnection Request Application needs to be submitted and approved by Santee Cooper before you can begin a solar installation on your home. Once the installation is completed, you may submit the rebate application to Santee Cooper at solar@santeecooper.com.

- Does being approved for interconnection guarantee a rebate?
  - No, the Interconnection Request Application and the Rebate Application are two separate components of the program. Rebate approval is contingent upon fulfilling all of the program requirements. For more information, please review the Program Manual.

- Do I need to submit proof of interconnection approval when submitting my rebate application?
  - No, Santee Cooper will perform an internal check on the status of your Interconnection Request Application.

- Is there a cap on the system size I can install?
  - The rebate is capped at the lesser of 6 kW or the Customer’s historic peak kW over the past 12 months. However, residential Customers may install systems up to 20 kW. Any additional capacity installed over 6 kW will not be eligible for rebate.

- Can Customers with existing systems apply for a rebate?
  - Solar Home rebates are intended for solar systems installed on or after December 1, 2016. If your system was installed prior to this date, please contact Santee Cooper at solar@santeecooper.com to receive more information about your options.

- If I own two homes in Santee Cooper’s territory, can I obtain a rebate for installing solar at both locations?
  - As long as the two homes have their own meter base numbers and meet the program requirements, it is possible to obtain rebates for two systems.

- How soon after submitting my completed application should I expect to receive my rebate?
  - Typically, rebates are mailed within 6 weeks of Santee Cooper receiving a completed Rebate Application.

- Does Santee Cooper provide one-to-one net metering?
  - Santee Cooper does not provide one-to-one net metering. However, Santee Cooper does credit customer-generated energy that is consumed by the customer at the full retail rate. Any generated energy that is exported back to the grid is credited to the customer at the rate specified on the Distributed Generation Rider.
Appendix B: Solar Home Rebate Applications and Terms & Conditions

2017 Solar Home Program

Rebate Application

Instructions (All capitalized terms are defined in the Terms and Conditions):

1. Complete and submit a Rebate Reservation Worksheet to reserve the rebate funding for your Solar PV System installation.
2. Submit the Santee Cooper Application to Interconnect Small Generation (for service under the current Distributed Generation Rider).
3. Receive approval to interconnect from Santee Cooper.
4. Install solar photovoltaic (PV) system.
5. Submit Solar Home Program Rebate Application. All fields must be completed in order for this application to be reviewed.

By submitting this application, Customer acknowledges that Customer is obligated to comply with Santee Cooper's Distributed Generation Rider, including its General Terms and Conditions for electric service, and to comply with Santee Cooper's rules and regulations governing electric service. Customer hereby gives notice of intent to Santee Cooper to operate an interconnected renewable energy generating facility pursuant to the current Santee Cooper Interconnection Standard. Customer must receive approval to interconnect prior to participating in the Santee Cooper Solar Home Rebate Program (“Program”) and prior to interconnecting to Santee Cooper’s system.

<td>$640</td>
</tr>
</tbody>
</table>

Note: Rebates are capped at 8 kW AC for a maximum rebate of $9,600 per qualifying Santee Cooper Customer installation Address.

Step 4
Terms and Conditions
Santee Cooper’s Solar Home Program (“Program”) offers rebates to qualifying Customers to facilitate the installation of solar photovoltaic (PV) systems. These Terms and Conditions set forth the participation requirements for Customers applying for rebates through the Program. By signing below, the Customer named in Step 1 (“Customer”) is agreeing to comply with and be bound by these terms.

Program Administrator, Santee Cooper has contracted and authorized Nexant, Inc. ("Program Administrator") to administer this Program including such activities, but not limited to reviewing, processing, and approving Customer applications; pre and post inspections of Customer facilities; facilitating project information requests; completing energy assessments at Customer facilities; and performing measurement and verification activities.

Trade Allies or Qualified Installers, Customers are required to use an installer who is a member of Santee Cooper’s Solar Electric Trade Ally network (“SE Trade Ally”) or a NABCEP-certified PV installation professional (“Certified Installer”) for the purchase and installation of their solar PV systems in order to be eligible for rebates in the Program. Trade Allies are independent contractors with respect to the Program. Trade Allies are independent contractors with respect to the Program, and are not authorized to make representations or incur obligations on behalf of Santee Cooper. Participation as a Trade Ally does constitute an endorsement by Santee Cooper, nor does it certify or guarantee the quality of work performed. A listing of Trade Allies is available online at www.santeecoopersolar.com or by contacting the Program Administrator.

Program Funding. The 2017 Program term is from January 1, 2017 to December 31, 2017. Program funds are limited and rebates are subject to funding availability. Rebate applications are accepted on a first-come, first-served basis until the conclusion of the Program term, or until Program funds are no longer available, whichever occurs first. Customers receiving rebates after all available Rebate Program funding for the Program period is committed, will be offered the option to be placed on a waiting list, in the order that they are received by Santee Cooper for consideration in the subsequent Program period.

Customer Eligibility. To be eligible for the Program, applicants must comply with the Customer and system eligibility requirements as set forth in the Santee Cooper Solar Home Program Manual (“Program Manual”). Application and required documentation must be submitted to the Program Administrator within 30 days of the purchase and installation of the solar PV system in order to be eligible to receive rebates. The Program participation process is outlined in more detail in the Program Manual. Customers qualified to receive rebates and bill credits through the Solar Home Program are not eligible to receive rebates or bill credits through the Solar Home program.

Program Participation Process. To be considered for rebates offered by the Program, Customer must

1. Have applied to interconnect and received communication from Santee Cooper approving the Application to Interconnect;
2. Utilize a Program approved Trade Ally or a Qualified Installer to complete the solar PV system installation; and
3. Complete and submit a Solar Home Rebate Application (“Rebate Application”) within 60 days of the installation.

The Rebate Application is incorporated herein by reference and constitutes a part of these Terms and Conditions.

Customer understands that submission of an application, even if correct and complete, does not guarantee payment of rebates. Payment of the rebate amount is based on Santee Cooper’s approval of installed measures and Customer meeting all eligibility and Program requirements.

Once interconnected to the Santee Cooper grid, Customer shall adhere to Santee Cooper policies as outlined in the Interconnection Standard and rebates systems cannot be disconnected or moved without Santee Cooper approval. Installed generation capacity must not exceed the limits set forth by the current Distributed Generation Rider.

Customer shall maintain liability insurance, as outlined in Santee Cooper’s Interconnection Standard, for as long as the solar PV system is interconnected to Santee Cooper’s system.

Applications for increasing the size of an existing solar PV system are subject to the Program Manual, Terms & Conditions, rebate levels, and other applicable Program criteria in place at the time of acceptance.

Program Rebate. Rebates for the installation of solar PV systems are set as a one-time payment of $1.60/watt paid based on the solar PV system’s rated capacity (watt AC). Solar Home Rebates are capped at $9,600 per installation Address. Rebate payments will be in the form of a check and made out to Customer, or its designated assignee.

In addition to the rebate, Solar Home Customers will receive energy credits as outlined in Santee Cooper’s most recent Distributed Generation Rider and additional energy credits as outlined in the 2015 Santee Cooper Integrated Resource Plan. Solar Home participants will be paid the rebate upon verification completion of all the solar PV system requirements.

Santee Cooper reserves the right to make final determination of Customer eligibility, and final rebate amounts. Please allow up to six (6) weeks for rebate processing following final approval of Rebate Application.

Inspections. As part of the Rebate Application review process, Santee Cooper may request additional documentation and conduct any site inspection activities necessary to confirm eligibility. Failure to provide or complete any of the requested information or Program requirements may result in the return of the Rebate Application and denial of rebates through the Program. The site visit is not a safety review and is not intended for any other purposes than verifying equipment rebate eligibility. Customer agrees to cooperate and provide Santee Cooper or its designated agents access to the solar equipment and meters for as long as the system is installed. Customer will provide any requested information relating to the facilities, systems, and installed equipment, as requested by Santee Cooper or Program Administrator to allow for verification of compliance with Program terms, accuracy of project documentation, and for verification of energy consumption. In the case of a rented or leased residence, Customer certifies that Customer has obtained appropriate permission from the building owner.

Tax Liability. Customer acknowledges that receipt of any rebate pursuant to the Terms and Conditions may result in taxable income to the Customer, even if Customer does not directly receive a payment, and that Customer is solely responsible for payment and reporting with respect to Customer’s taxes. Customer should consult his or her own tax advisor with respect to the tax treatment of rebates provided pursuant to the Terms and Conditions. Nothing in these Terms and Conditions is intended
to constitute tax advice and cannot be used for the purpose of avoiding penalties under the Internal Revenue Code.

Energy Benefits. In exchange for the rebates provided by Santee Cooper, Customer agrees to transfer to Santee Cooper all Environmental Attributes, as defined below, associated with the Solar Home Program. Environmental attributes mean any and all credits, benefits, emissions reductions, offsets and allowances, however entitled, resulting from the avoidance of the emission of any substance to the air, soil or water at or by Santee Cooper generating facilities through reduced generation of energy or other savings or offsets on account of the Solar Home Program sponsored solar PV system installation. Customer will not claim ownership of any environmental attributes.

Customer Information. By signing this application, Customer authorizes and acknowledges that Santee Cooper may duplicate, disseminate, release and disclose Customer’s information relating to a Customer Application (including the entirety of its contents), and any other information related to the Customer’s participation in the Program, including but not limited to account information and billing data, energy usage, and tax identification numbers to Program Administrator and Trade Ally, as applicable, and any other third party utilized by Santee Cooper for the purpose of processing the Customer Application, to verify or audit Program records or system installation, operation and results, or as required to comply with state and/or federal law, fraud prevention, regulation, and other legal action; in those cases, Santee Cooper and its subcontractors shall comply with all legal requirements of the jurisdiction of the individual whose Customer data would be disclosed before making such disclosure.

Santee Cooper reserves the right to publicize Customer’s participation in this Program. Customer may opt out of such publication in writing provided to Santee Cooper.

Project Installations. Customer acknowledges that while the Program may provide rebates for the installation of solar PV systems, neither Santee Cooper nor Program Administrator will install any equipment. Customer is solely responsible for the selection of equipment to be installed and for the selection of a Trade Ally to complete the installation of equipment. Customer acknowledges that responsibility for delivery and workmanship related to any equipment or services the Customer procures with or through the Use of the Trade Ally exclusively within the State of South Carolina.

Fraud. Customer represents and warrants that it is eligible and authorized to participate in the Program, and that Customer’s participation in the Program will not result in the violation of or breach of any Customer law, Customer’s contractual obligations, or other duties or rights of any third party. Any person or company who knowingly files an application containing any materially false information or who purposely or misleadingly omits or understates subject person to criminal and civil penalties. Any and all funds determined to have been acquired on the basis of inaccurate or fraudulent information must be returned to Santee Cooper. Any Customer found to be engaged in fraudulent activity or misrepresentation of any kind will be removed from the Program. This section shall not limit remedies that may be available for the filing of a false or fraudulent application, including, but not limited to, referral to law enforcement authorities.

No Warranties. Santee Cooper and Program Administrator do not make any, and both Santee Cooper and Program Administrator expressly disclaim any warranties, expressed or implied, regarding the design, manufacture, construction, safety, performance or effectiveness of the programs, services or equipment installed, and/or services rendered by any person or entity in connection with the Program. Santee Cooper and Program Administrator DISCLAIM ALL WARRANTIES, EXPRESS OR IMPLIED, TO THE MAXIMUM EXTENT PERMITTED UNDER LAW, WHETHER STATUTORY OR OTHERWISE, INCLUDING WITHOUT LIMITATION ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

Indemnification. Customer shall defend, protect, indemnify and hold harmless Santee Cooper, Program Administrator and their respective directors, employees, contractors, agents, and service providers (collectively, the “Indemnified Parties”) against all claims, losses, expenses, damages, demands, judgments, causes of action, suits, costs (including attorney’s fees and expenses) and liability of every kind and character whatsoever (“Claims”) arising out of Customer’s act or omission; provided however, that Customer shall not indemnify and hold harmless any Indemnified Party against Claims for any matter that Santee Cooper and Program Administrator have indemnified Customer. Notwithstanding the foregoing, this indemnification is in addition to any other indemnity and/or insurance obligations between the participant and the indemnified Parties.

Limitation of Liability. To the fullest extent allowed by law, Santee Cooper and Program Administrator’s total liability, regardless of the number of claims, is limited to the amount of the rebate payment approved in accordance with the Program Terms and Conditions, and Santee Cooper, Program Administrator and its affiliates and their respective directors, employees, contractors, agents, and service providers shall not be liable to the Customer or any other party for any other obligations.

Notwithstanding anything in these Terms and Conditions to the contrary, Santee Cooper, Program Administrator, and their respective directors, officers, employees and/or agents shall not be liable hereunder for any type of damages, whether indirect, incidental, consequential, exemplary, related, punitive or special damages, including damages for loss of use regardless of the form of action, whether in contract, indemnity, warranty, strict liability or tort, including negligence of any kind.

Compliance with Law. Customer, at its own expense, is responsible for meeting all requirements and complying with all local and state laws, rules and codes concerning the Program, including without limitation, the installation and maintenance of eligible equipment. Customer shall, at its own expense, obtain and maintain licenses and permits needed to install eligible equipment.

Governing Law. The laws of the State of South Carolina shall govern, interpret, and apply these Terms and Conditions and the relationship between the parties, performance hereunder, and all matters incident thereto. Any legal action associated with the Program must be initiated and any court proceeding must be brought within the competent jurisdiction within the State of South Carolina.

Program Changes. Santee Cooper reserves the right to change or cancel the Program or its Terms and Conditions at any time by providing Customer with notice via mail, fax, transmission, or at the address provided in Step 1, provided that material changes will only be effective if Customer communicates their assent directly or indirectly by the acceptance of Program benefits or by failing to opt out of the Program or terminate this Agreement within ten (10) business days of its receipt of notice of the proposed change, update or modification. Applications with an approved Rebate Reservation, for which the Customer has completed the required Program requirements, will be processed to completion under the Terms and Conditions in effect at the time of the issuance of the Rebate Reservation by Santee Cooper. The terms of this section, Program Changes, will no longer be applicable after a Customer receives a rebate payment, if any.

Entire Agreement. The terms set forth herein, including all attachments and incorporated references, constitute a complete statement of the Terms and Conditions applicable to the Program and supersede all prior representations or understandings, whether written or oral. Santee Cooper and Program Administrator shall not be bound by or be liable for any statement, representation, promise, inducement or understanding of any kind that is not set forth herein. To the extent there is any conflict between the language of the Program Manual and these Terms and Conditions, these Terms and Conditions shall prevail.
Acceptance of Terms and Conditions

By signing below, I certify that:
1. I have the authority to accept the Terms and Conditions;
2. I understand and agree to be bound by and comply with the terms set forth, herein and such other terms as set forth in the Program Manual;
3. The information provided to Santee Cooper or Program Administrator in and as part of the Solar Home Program Rebate Application is accurate and complete and I will notify Santee Cooper immediately of any changes to the information.

Authorized by (please print)  Signature of Authorized Customer  Date

Step 5
Rebate Payment Information

The rebate(s) will be made payable to the Santee Cooper residential Customer specified in Step-1 and mailed to the address as indicated below. Mail rebate check to (check one):

☐ Billing Address  ☐ Other (complete release section below)

Rebate Release Information (Authorizing payment to be sent to someone other than the Customer)

Important: Complete this section only if rebate payment is to be directed to someone other than the Customer indicated above. Please note that the federal government may require that a 1099 be issued to you, the Customer, for the rebate amount paid to your contractor. Please consult with your tax professional for tax implications.

I AM AUTHORIZING THIS REBATE PAYMENT TO THE INDIVIDUAL OR BUSINESS NAMED BELOW AND I UNDERSTAND THAT I WILL NOT BE RECEIVING THE REBATE PAYMENT CHECK FROM SANTEE COOPER. I ALSO UNDERSTAND THAT MY RELEASE OF PAYMENT TO THE INDIVIDUAL OR BUSINESS NAMED BELOW DOES NOT EXEMPT ME FROM THE REBATE REQUIREMENTS OUTLINED IN THE APPLICATION.

Authorized by (please print)  Signature of Authorized  Date

Check should be made payable to:

v1.12222016
Appendix C: Solar Share Rebate Application and Terms & Conditions

2017 Solar Share Home

Subscription Application

Instructions (All capitalized terms are defined in the Terms and Conditions):

1. Complete all fields in the Solar Share Home Subscription Application and submit to Santee Cooper as indicated on page 3. All fields must be completed in order for this Application to be reviewed.
2. Upon reviewing your application, Santee Cooper will send an Approval Letter stating the final number of Blocks approved and the Discounted Subscription Fee required to initiate the subscription.
3. Discounted Subscription Fee is due within 90 days of the date on the Approval Letter.
4. A Santee Cooper Customer Service representative will contact you to install an upgraded meter. After installation of the meter, your subscription will begin.

Step 1
Customer Information

Customer Name (as it appears on Santee Cooper bill) ____________________________ Last 4 Digits of Social Security Number ______

Service Address ____________________________ City ____________________________ State ______ Zip ______

Electric Account Billing Address (if different from Service Address) ____________________________ City ____________________________ State ______ Zip ______

Santee Cooper Account Number associated with the Service Address (located on Santee Cooper bill) ____________________________

Contact Name ____________________________ Contact Phone Number ____________________________ Email ____________________________

Step 2
Solar Share Subscription Agreement

Upon signature by the Customer, this Application, together with the Terms and Conditions set forth below constitutes the entire agreement between Santee Cooper with respect to the Solar Share Subscription Program. All capitalized terms are defined in the Terms and Conditions.

Solar Share Subscription Fees

Customer hereby applies for a Solar Share Subscription of ______ Block(s) from the Solar Farm. The Discounted Subscription Fee is calculated as described in Table 1.

<table>
<thead>
<tr>
<th>Solar Share Subscription (in Blocks; 1 Block = 1kW)</th>
<th>Subscription Fee ($1,520 per Block)</th>
<th>Santee Cooper Rebate ($1,400 per Block, up to a maximum of $6,400)</th>
<th>Discounted Subscription Fee*</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>A</td>
<td>B</td>
<td>(A - B)</td>
</tr>
</tbody>
</table>

* Amount due to Santee Cooper to initiate Solar Share subscription. Note: The approved number of Blocks and the Discounted Subscription Fee will be finalized in the Approval Letter.

Solar Share Subscription Benefits

For each hour during the Customer’s monthly billing cycle, the Customer will receive a Panel Production Credit (or Credit as it will be called on the monthly bill), which is a credit for the Customer’s Solar Share Generation applied to the Customer’s Energy Consumption. In addition, if the Customer has Excess Project Generation, which means its Solar Share Generation was greater than its Energy Consumption, then the Customer will receive a credit (called the DU Credit on the monthly bill) equal to the Distributed Generation Rate multiplied by the Excess Project Generation.

v1.12222016
Page 1 of 3
www.santeecoopersolar.com
Step 3
Terms and Conditions

South Carolina Public Service Authority ("Santee Cooper") is implementing a Solar Share Home Program ("Program") to provide qualifying Customers with rebates to facilitate the subscription to solar power generated through a Community Solar model. These Terms and Conditions set forth the participation requirements for Customers applying for rebates through the Program. By signing below, the Customer named in the Program Application ("Application") is agreeing to comply with and be bound by these terms.

Definitions:

- **Approval Letter**: Letter sent from Santee Cooper to Customer approving Customer’s purchase of a Block and associated Program Rebates.
- **Block**: A block of (20) kW AC output rated generation capacity from the Solar Farm.
- **DG Rate**: The rate paid in dollars per hour of Block 1 as specified in the Energy Credit section of the most current Santee Cooper Distributed Generation Rider.
- **DG Credit**: The DG Rate multiplied by the Excess Project Generation.
- **Discounted Subscription Fee**: The Subscription Fee minus the Program Rebate.
- **Energy Consumption**: The amount of kWh used by the Customer in a specified time period measured on an hourly basis by the customer’s electric meter. A summary of the Energy Consumption is presented in the monthly electric bill.
- **Excess Project Generation**: The Solar Share Generation minus the Energy Consumption.
- **Metering Fee**: For each Customer participating in the Program, regardless of the number of Blocks subscribed, a set monthly fee as set forth in the Metering Charge section of the most current Santee Cooper Distributed Generation Rider.
- **Panel Production Credit**: A credit for the Customer’s Solar Share Generation applied to the Customer’s Electric Bill as specified in the monthly electric bill, which will be referred to as “Credit” on the Customer’s monthly invoice.
- **Program**: Santee Cooper Solar Share Home Program.
- **Program Administrator**: Santee Cooper has contracted and authorized Nexant, Inc. to administer this Program including such activities, but not limited to reviewing, processing, and approving of Customers applications, facilitating project information requests from Customers, and performing measurement and verification activities.
- **Program Manual**: the Santee Cooper Solar Home Manual, a separate document provided with this Application Agreement which is incorporated herein by reference.
- **Program Rebate**: One-time payment of $150 per Block, which is capped at $600 per Customer Service Address. Rebate payments will be in the form of a discount applied to the Subscription Fee.
- **Purchase Application**: Steps 1 and 2 of this Agreement.
- **Solar Farm**: Colleton Solar Farm, in Colleton County, South Carolina, called the Solar Farm, with total rated installed capacity of 3 MW. The Solar Farm is not owned by Santee Cooper but operated pursuant to a purchase power agreement.
- **Solar Share Generation**: Actual solar energy generated by the Solar Farm in terms of kWh/hour as measured by a meter at the Solar Farm multiplied by the percentage of the Customer’s subscription in the total installed capacity of the Solar Farm. Solar Share Generation is Solar Panel and weather dependent.
- **Solar Share Subscription**: The participation rights granted to Customer in this Program after receipt of Subscription Fee by Santee Cooper.
- **Start Date Notice**: A written notice from Santee Cooper, which will be sent upon receipt of the executed Subscription Agreement, notifying a Customer of the month that their Solar Share Subscription will commence.
- **Service Address**: The address at which a Customer receives retail electric services from Santee Cooper. A Customer may have more than one Service Address.
- **Subscription Fee**: The fee charged to the Customer to purchase a Block in the Solar Farm.
- **Solar Panel**: The solar arrays that are currently installed for generating electric power and in service at the Solar Farm.
- **Stand-by Fee**: The rate per each kW of installed capacity that will be charged for each Block as set forth in the Stand-by Charge section of the most current Santee Cooper Distributed Generation Rider.
- **Program Funding**: The 2017 Program term is from January 1, 2017 to December 31, 2019. Customers are limited and rebates are subject to funding availability. Applications are accepted on a first-come, first-served basis until the conclusion of the Program term, or until Program funds are no longer available, whichever comes first. Customers requesting rebates after all available Rebate Program funding for the Program Period is committed, will be offered the option to be placed on a waiting list. If the order that the applications are received by Santee Cooper for consideration in the subsequent Program period.
- **Customer Eligibility**: To be eligible for the Program, applicants must comply with the eligibility requirements as set forth in the Program Manual. Application and required documentation must be submitted to Santee Cooper along with a signed copy of the Approval Letter, in order to be eligible to receive rebates. The Program participation process is outlined in more detail in the Program Manual. Customers qualified to participate in the Solar Share Home program are not eligible to participate in the Solar Home program.

Program Participation Process:
- To be considered for rebates offered by the Program, Customer must:
  1. Complete and submit a Rebate Application and sign this Agreement.
  2. Receive an Approval Letter from Santee Cooper which will consist of the approved conditions and either a deadline by when the Discounted Subscription Fee payment must be received by Santee Cooper, or a Payment Plan schedule.
  3. If paying upfront, make the required payment in full as required by Santee Cooper; and
  4. Receive a Start Date Notice that states the monthly bill in which the credits from Program participation will begin.

Customer understands that submission of a Rebate Application, even if correct and complete, does not guarantee participation in the Program.

Customer subscription must be a minimum of 20 kW and must not exceed the lesser of 20 kW or the Customer’s annual peak electrical demand recorded over the past 12 months from the date on which the Solar Share Home Rebate Application was signed. Applications for increasing the amount of Blocks purchased by a Customer for a Service Address will be subject to a minimum of 20 kW and the next available Block size. The Customer will also be charged a monthly Metering Fee and Stand-by Fee. Santee Cooper reserves the right to make final determination of Customer eligibility and final rebate amounts.

Solar Share Subscription Benefits:
- In addition to the Program Rebate, Solar Share Home Customers will receive the Panel Production Credit and the DC Credit applied to each monthly bill. The Customer will also be charged a monthly Metering Fee and Stand-by Fee. Santee Cooper reserves the right to make final determination of Customer applicable credit calculations and application.

Subscription Term: Each Solar Share Subscription shall be effective beginning on the date on which the Discounted Subscription Fee is received by Santee Cooper and end on December 20, 2030 or if a Solar Share Subscription Buyout (as defined below) is initiated.

Termination: in the event Customer fails to make the Discounted Subscription Fee and Stand-by Fee Payment within 60 days from the date on the Approval Letter, the Subscription Application Agreement will be deemed terminated.

Energy Benefits: In exchange for the Program Rebates provided by Santee Cooper, Customer agrees to transfer to Santee Cooper all environmental attributes, as defined below, associated with the program. Environmental attributes means any and all credits benefits, emissions reductions, offsets and allowances, however entitled, resulting from the avoidance of the emission of any substance to the air, soil or water at or by Santee Cooper generating facilities through reduced generation of energy or other savings or offsets on account of the program. Customer will not claim ownership of any environmental attributes.

Solar Share Subscription Buyout: Customer agrees that at any time, and in Santee Cooper’s sole discretion, Santee Cooper may elect to repurchase the Solar Share Subscription for one or more Blocks and Customer will sell its Solar Cooper pursuant to the terms in this section. Santee Cooper may initiate a Buyout Process in the event of any of the following conditions:

1. Sale of the Customer’s Service Address to an address outside of the Santee Cooper service territory.
2. Customer’s account reported to be no longer in service, for any reason.

Subscription Buyout will be implemented as follows:

1. Santee Cooper will notify Customer of Santee Cooper’s election to exercise its repurchase right (the “Repurchase Notice”). The Repurchase Notice will include a Repurchase Price (“Repurchase Price”) and the basis for such calculation, which will be the price at which Santee Cooper will repurchase the Customer’s remaining Solar Share Subscription (if any).
2. Once the Repurchase Price is paid, any credits available through the program shall cease.

A Customer shall not request Santee Cooper to repurchase its subscription under any conditions other than a change in the Customer’s Service Address to outside of the Santee Cooper service territory.

Transfer of Solar Share Subscription: Customer may not assign, gift, bequeath or otherwise transfer any portion of the subscription to any other individual, address or entity provided, however, that if a Customer dies during the term of this Agreement, a surviving spouse may request transfer of this Agreement along with a standard request to Santee Cooper for an account name change.
Ownership and Access to Solar Panels. Customer acknowledges and agrees that Customer will not own or retain possession and control of the Solar Panels, and will not have the right to maintain or operate the Solar Panels. Customer will not have access to the Solar Panels, for any purpose, unless otherwise agreed to in advance by Santee Cooper. Customer also acknowledges that the Solar Panels may be replaced with any make, model, brand or type of solar panel with or without notice to Customer of said changes.

Inspections. As part of the Rebate Application review process, Santee Cooper may request additional documentation and conduct any site inspection activities necessary to confirm eligibility. Failure to provide or complete any of the requested information or program requirements may result in the return of the Rebate Application and denial of rebates through the Program. Customer agrees to cooperate and provide Santee Cooper or its designated agents access to the facility that is subscribing to the Solar Share program. Customer will provide any requested information relating to the Customer site as requested by Santee Cooper or Program Administrator to allow for verification of compliance with Program terms, accuracy of project documentation, and for verification of energy consumption.

Tax Liability. Customer acknowledges that receipt of any rebate pursuant to the Terms and Conditions may result in taxable income to the Customer, even if Customer does not receive a payment, and that Customer is solely responsible for payment and reporting with respect to Customer's taxes. Customer should consult its or her own tax advisor with respect to the tax treatment of rebates provided pursuant to the Terms and Conditions. Nothing in these Terms and Conditions is intended to constitute tax advice and cannot be used for the purpose of avoiding penalties under the Internal Revenue Code.

Customer Information. By signing the Solar Share Home Subscription Application and Terms and Conditions, Customer authorizes and acknowledges that Santee Cooper may duplicate, disseminate, release and disclose Customer's information relating to a Customer's participation in the Program, including but not limited to account information and billing data, energy usage, and tax identification numbers to Program Administrator, as applicable, and any other third party utilized by Santee Cooper for the purposes of processing the Customer's Application, to verify or audit Program records, operation and results, or as required to comply with state and/or federal law, fraud prevention, regulation, and other legal action. In those cases, Santee Cooper and its subcontractors shall comply with all legal requirements of the jurisdiction of the individual whose Customer data would be disclosed before making such disclosures. Santee Cooper reserves the right to publish or paraphrase in written form this information and publish it in written form to Santee Cooper.

Fraud. Customer represents and warrants that it is eligible and authorized to participate in the Program. Customer's participation in the Program shall result in the violation or breach by Customer of law, Customer's contractual obligations, or other duties or rights of any third party. Any person who knowingly files an application containing any materially inaccurate information, or information which would reasonably or improperly conceives information subjects such person to criminal and civil penalties. Any and all funds determined to have been acquired on the basis of inaccurate or fraudulent information must be returned to Santee Cooper. Any Customer found to be engaged in fraudulent activity or misrepresentation of any kind shall be ineligible for the Program and shall not be eligible for the Program or any other Santee Cooper program for a period of 5 years.

No Warranties. Santee Cooper and Program Administrator do not make any, and neither Santee Cooper nor Program Administrator represents to Customer any warranty or representation of any kind with respect to the design, manufacture, construction, safety, performance or effectiveness of the Solar Farm, Solar Panels, and/or services rendered by any person or entity in connection with the Program, Santee Cooper, and Program Administrator disclaim all warranties, express or implied, to the maximum extent permitted under law, whether statutory or otherwise, including without limitation any warranties of merchantability or fitness for a particular purpose.

Indemnification. Customer shall defend, protect, indemnify and hold harmless Santee Cooper, Program Administrator and their respective directors, employees, contractors, agents, and service providers (collectively, the "Indemnified Parties") against all claims, losses, expenses, damages, demands, judgments, causes of action, suits, costs (including attorneys' fees and expenses) and liability of every kind and character whatsoever ("Claims") arising out of Customer's act or omission, provided however, that Customer shall not indemnify and hold harmless any Indemnified Party against Claims for any matter that Santee Cooper and Program Administrator have indemnified Customer. Notwithstanding the foregoing, this indemnification is in addition to any other indemnity and/or insurance obligations between the participant and the Indemnified Parties.

Limitation of Liability. To the fullest extent allowed by law, Santee Cooper and Program Administrator's total liability, regardless of the number of claims, is limited to the amount of the rebate payment approved in accordance with the Program Terms and Conditions, and Santee Cooper, Program Administrator and its affiliates and their respective directors, employees, contractors, agents, and service providers shall not be liable to the Customer or any other party for any other obligations.

Compliance with Law. Customer, at its own expense, is responsible for meeting all requirements and complying with all local and state laws, rules and codes concerning the Program, including without limitation, the installation and maintenance of eligible equipment.

Governing Law. The laws of the State of South Carolina shall govern the interpretation, validity, and effect of these Terms and Conditions, the parties' performance thereunder, and all matters incident thereto. Any legal action associated with the Program must be initiated with any court of competent jurisdiction within the State of South Carolina. By submitting this Application, Customer acknowledges that Customer is obligated to comply with Santee Cooper's rules and regulations governing electric service.

Program Changes. Santee Cooper reserves the right to change or cancel the Program or its Terms and Conditions at any time without notice. Preapproved applications, for which the Customer has completed the required Program requirements, will be processed to completion under the Terms and Conditions in effect at the time of the pre-approval by Santee Cooper. The Terms and Conditions may be terminated by Santee Cooper, at any time without cause.

Entire Agreement. The terms set forth herein, including all attachments and incorporated references, constitute a complete statement of the agreement between the parties and supersede all prior representations or understandings, whether written or oral. Santee Cooper and Program Administrator shall not be bound by or be liable for any statement, representation, promise, inducement or understanding of any kind that is not set forth herein. To the extent there is any conflict between the language of the Program Manual and these Terms and Conditions, these Terms and Conditions shall prevail.

Acceptance of Terms and Conditions

By signing below, I certify that:
1. I have the authority to bind the Customer to the Terms and Conditions;
2. I understand, and agree to be bound by and to comply with the terms set forth, herein, and such other terms as set forth in the Program Manual;
3. The information provided to Santee Cooper or Program Administrator in and as part of the Solar Home Subscription Application is accurate and complete, and I will notify Santee Cooper immediately of any changes to the information.
